SUMMARY

Full-Stack Developer with strong fundamentals in JavaScript. Hands-on experience in building responsive web applications, REST APIs, and implementing user authentication and authorization. Actively practicing while learning DevOps fundamentals. Analytical thinker with experience in football match analysis and data-driven decision making.

EXPERIENCE

Full Stack Developer Intern

Kuchoriya TechSoft | Jan 2026 – present

- Designed **multi-tenant architecture** with isolated databases per company
- Developed secure **REST APIs with JWT & RBAC**
- Implemented **OTT CMS** for managing movies and web series
- Integrated **HLS (m3u8) streaming** for adaptive video delivery
- Used **AWS S3** for media storage and optimized large file handling

MERN Developer Intern

Bharg IT Solutions | Feb 2024 – May 2024

- Contributed to frontend development of a live platform (200+ active users) using React.js
- Developed a complete admin panel using MERN stack for managing users, content, and system operations
- Integrated MySQL database for efficient data management and backend operations
- Improved UI responsiveness and usability across multiple devices

PROJECTS

Betcare (Betting platform created during my internship)

- Contributed to the development of a betting platform during internship, working on frontend and admin functionalities.

Blood Finder (Smart India Hackathon) [Link](#)

- Developed a web application that helps users locate the nearest blood bank during emergencies and connects them directly, reducing the time and effort required to find blood.

EDUCATION

- **Master of Computer Application (MCA)**, JECRC University, Jaipur Aug'2024 – July'2026
